CLOUD-BASED DONATION PROCESSING &
AUTOMATED RECEIVABLES MANAGEMENT

Powerful Donation Processing to Accelerate and Grow Your Organization

Your donors' payment preferences are quickly evolving, but are your donation systems and processes ready to keep pace? Donation systems should be optimized to provide your donors with the flexibility of payment methods that they increasingly demand, while also maximizing efficiencies, improving data accuracy and reducing costs for your nonprofit.

Today's growing portfolio of available payment methods and channels has added new levels of complexity to donation processing — often requiring systems from multiple vendors, which can create duplicate work for your organization. ETran from FTNI simplifies acceptance, processing, posting and management of any donation type, helping organizations grow by streamlining operations while increasing convenience and flexibility for your donors.

How Simplicity and Ease of Use Drive Loyalty and Growth

FTNI's ETran solution is a flexible, cloud-based, integrated donation processing platform and data warehouse ideal for nonprofits that manage one or many locations, payment channels or divisions. ETran delivers a real-time, organization-wide view of all cash, check, ACH, credit, debit and mobile payments for simplified donation management and processing.

ETran serves more than 16,000 users across a variety of industries:

- Nonprofit
- Financial Services
- Insurance
- Securities
- Property Management
- Media
- Distribution & Fulfillment
- ... and others

Unlike traditional, disparate, standalone solutions, ETran's easy-to-deploy, modular design seamlessly integrates virtually every possible payment channel within a single interface — providing consolidated settlement, posting, reporting and reconciliation. No changes to current administration processes, bank and processor relationships, or other accounting software is required. And, ETran's secure Software-as-a-Service (SaaS) interface fully handles the burden of PCI DSS compliance — allowing your Nonprofit to focus on growing donations rather than ongoing IT, compliance and administration.

Unlock the Power of Mobile Donations

ETran Mobile empowers your organization with the ability to accept mobile remote deposit capture (RDC), ACH, credit or debit card payments securely, either via a stand-alone app, or by integrating a donation component into your existing mobile application. All donations continue to leverage the ETran cloud-based platform, continuing the strategy that all donations are processed and posted from a single platform.

Popular Nonprofit Implementations

**American
Red Cross**

Open Door Mission

That means more donations from more channels, more transactions, and more revenue to help grow your organization and fuel its ability to give back and serve every day.

ETran for Nonprofits

CLOUD-BASED DONATION PROCESSING &
AUTOMATED RECEIVABLES MANAGEMENT

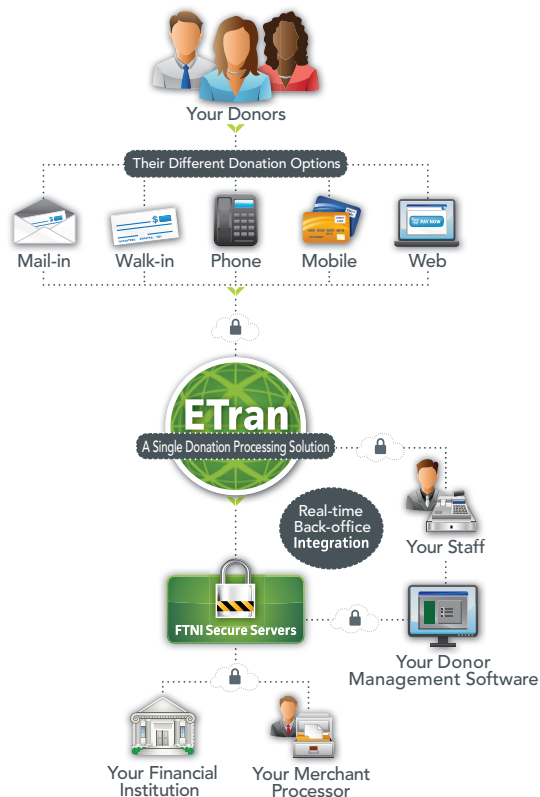

Features

- Single, user-friendly interface that consolidates all payment types and channels:
 - Mailed-in, called-in, in-person, web, mobile, etc.
 - Check and remittance document scanning via Remote Deposit Capture (RDC) – up to 8.5" x 14"
 - Single and recurring credit card donations regardless of credit card processor
 - Single and recurring ACH donations, regardless of financial institution
 - Automated remittance document processing and reconciliation to improve data accuracy and speed 'thank you' correspondence
 - Mobile donations
 - Cash processing
- Real-time integration with popular accounting and donor management software and systems
- Reduce the risk of fraud by proactively monitoring and suspending suspicious donations in real-time
- 30+ configurable reports – easily add more
- Deployed in fully redundant data center environment with no single point of failure

Benefits

- Streamlined administration – all donation channels and methods processed and managed on a single platform
- Intuitive platform, requires little to no training
- SaaS, cloud-based technology accelerates deployment, support and upgrades
- Real-time, enterprise-wide view of all donation activity regardless of location or channel
- Automated enterprise-wide settlement, posting, reporting and reconciliation
- Leverage existing donation processes, bank and processor relationships, and accounting and donor management software and systems
- Robust, secure and PCI Level 1 certified platform eliminates compliance effort and expense
- Modular design enables new locations, users, donation channels and methods to be added in just a few clicks
- Flexible field mapping enables easy, complete accounting and donor management software integration
- Single-source for donation processing software and support
- Founders and employees of FTNI have more than 250 years of combined experience designing, deploying and supporting donation and payment software solutions

How ETran Works

About FTNI

follow us online

Financial Transmission Network, Inc. (FTNI) accelerates the way businesses accept, process, post and manage payments. Processing millions of transactions monthly, FTNI's integrated receivables solution, ETran, accepts any payment method, via any payment channel — on a single, secure, cloud-based platform. Easily and affordably implemented, ETran minimizes setup, support and maintenance costs associated with receivables management and payment processing. ETran's modular design helps you efficiently and effectively address current AR needs while delivering a seamlessly scalable solution for future growth. Offering a real-time, enterprise view of all payments activity, ETran increases receivables oversight and delivers significant cost savings by streamlining operations and automating time-consuming manual processes.
