

FTNI Named to *Food Logistics*' 2018 FL100+ Top Software and Technology Providers List for Fourth Consecutive Year

Continued Growth and Adoption of the ETran Integrated Receivables Platform Helps FTNI Land Honors from Food Logistics as a Top Software and Technology Provider for Fourth Straight Year.

OMAHA, Neb. (PRWeb) December 17, 2018 – Financial Transmission Network, Inc. (FTNI), a leading provider of truly integrated receivables and straight-through processing solutions, today announced that *Food Logistics*, the only publication exclusively dedicated to covering the movement of product through the global food supply chain, has named FTNI to its 2018 FL100+ Top Software and Technology Providers list. This marks the fourth straight year that FTNI has been recognized in the annual FL100+ listing, making its debut in 2015.

The annual FL100+ Top Software and Technology Providers list serves as a resource guide of software and technology providers whose products and services are critical for companies in the global food and beverage supply chain.

FTNI's partnership network of leading cooperatives, buying groups and solution providers now represents over 1,000 distribution companies across the U.S. and Canada. Having added 25+ new distribution customers in the past 18 months, FTNI's momentum as a top provider of truly [integrated receivables](#) processing solutions to the foodservice, beverage and janitorial & sanitation [distribution](#) industries continues to accelerate.

"The digital supply chain continues its rapid emergence, bringing with it expanded capabilities that impact visibility, security, compliance and efficiency," remarks Lara L. Sowinski, editorial director for *Food Logistics* and its sister publication, *Supply & Demand Chain Executive*. "Every aspect of the global food supply chain stands to benefit from new and innovative software and technology that is fundamentally changing the global food supply chain."

ETran's cloud-based, highly-configurable design allows organizations to quickly tailor the platform to their unique business processes and workflows to consolidate, automate and significantly streamline accounts receivables (A/R) operations spanning any payment method ([check](#), [ACH](#), [credit/debit card](#), cash), from any payment channel (mailed-in, [lockbox](#), called-in, in-person, [online](#), [mobile](#)), all on a single, secure and compliant (PCI, SSAE 16, HIPAA and more), Software-as-a-Service (SaaS) platform.

Featuring complete [electronic invoice presentment and payment](#) (EIPP) capabilities across all employee and customer-facing interfaces, ETran has proven to help reduce DSO by more than four days and accelerate companies' time-to-process by up to 80% in some cases. ETran's modular 'plug-n-play' nature works with existing banking and merchant processor relationships and supports efficient integration (batch or real-time) with any back-office system.

"FTNI is honored to once again be recognized by *Food Logistics* as a leading software and technology provider to the foodservice and beverage distribution industries," said Zac Robinson, vice president of sales & marketing at FTNI. "We take great pride in helping our customers leverage a single cloud-based receivables processing platform to transform and evolve their A/R operations to achieve straight-through processing, decrease DSO and increase cash flow."

FTNI

True Integrated Receivables.

Companies on this year's 2018 FL100+ Top Software and Technology Providers list will be profiled in the November/December 2018 issue of *Food Logistics*, as well as online at www.foodlogistics.com.
