

HPC Foodservice Launches New Payment Portal Powered by FTNI; Allowing Customers to Conveniently View and Pay Invoices Online

Independently Held Broadline Foodservice Distributor Servicing the Northeast United States Since 1908 Delivers Its Customers with Convenient and Secure Online Payment Options.

OMAHA, Neb. (PRWeb) January 17, 2019 – Financial Transmission Network Inc. (FTNI), a provider of industry-leading integrated receivables solutions, today announced HPC Foodservice, an independently held broadline foodservice distributor located in north central Connecticut, has launched its Fully-hosted Online Payment Portal to deliver customers with convenient and secure online payment options accessible via the HPC Foodservice website.

Located in South Windsor, Connecticut, [HPC Foodservice](#) has proudly served customers in a nine-state region of the northeast United States since 1908. A member of Frosty Acres Brands, HPC Foodservice has remained committed to maintaining the highest level of customer satisfaction through extraordinary service, high-quality products and competitive pricing for over one hundred years.

A leading provider of truly [integrated receivables](#) processing solutions to the [foodservice](#), beverage and janitorial & sanitation distribution sectors, FTNI supports the Accounts Receivables (A/R) operations of a fast-growing number of distributors serving customers across every state in the U.S. and several regions in Canada. Used by companies spanning numerous industries, ETran has been proven to decrease companies' time-to-process by up to 80 percent and reduce DSO by more than four days.

Through the addition of ETran's Fully-hosted [Online Payment Portal](#), HPC Foodservice customers now have access to convenient self-service ACH payment options. Upon initial registration and log-in, HPC customers are able to view and select electronic versions of their invoices for payment. Customers can also choose to schedule future payments based on invoice due dates for additional convenience.

"As our customers' payment preferences evolve, the ability to pay online is something that's we've received increased demand for over the past several years," said Keith Chambers, controller at HPC Foodservice. "We're excited to bring the convenience and security of online payment options to our customers through our partnership with FTNI and their proven success within the distribution space."

ETran's cloud-based, highly configurable design allows organizations to quickly tailor the platform to their unique business processes and workflows to consolidate, automate and significantly streamline A/R operations spanning any payment method, from any payment, all from a single, easy-to-use user interface. ETran's 'plug-n-play' nature works with existing banking and merchant processor relationships and supports efficient integration (batch or real-time) with any back-office system to deliver on the promise of true straight-through processing. All payment information is processed and stored on ETran's fully compliant – PCI, HIPAA, SSAE 16 and more – Software as a Service (SaaS) platform.

“The adoption of new online payment processing solutions continues to grow at an impressive rate among many of our B2B customers,” commented John Karhoff, director of sales at FTNI. “We are excited to help bring these new capabilities to HPC Foodservice and their customers in order to provide new levels of convenience for their customers and drive increased efficiencies within HPC’s A/R operations.”
